

FieldSTEM by the Numbers

K-12 Grades Engaged

4 Educators Implementing

650 Students Impacted

Goals for FieldSTEM implementation

- FieldSTEM will be implemented in grades 2, 5, 6, 7, and 8
- All K-8 teachers and principal will be trained and educated about FieldSTEM and cross-curricular use
- Teachers will create high-impact field investigations in collaboration with community partners

Activities planned to meet goals

- Teachers will attend professional development workshops hosted by Pacific Education Institute

“I used to think that the best way children learn was sitting down with a book and paper and pencil. Now I think hands on learning is the most engaging.”
